Why TI:GER?

» TI:GER® Curriculum

The TI:GER program uniquely combines classroom instruction, innovation projects, team activities, and real-world experience into a total, immersive, practical education throughout three semesters.

» TI:GER® Teamwork

Teaming up with Georgia Tech MBA students, PhD students and candidates work on technology-innovation projects, including projects with ventures in the Creative Destruction Lab (www.creativedestructionlab.com).

» TI:GER® Network

PhD candidates gain access to the TI:GER Network of more than 700 TI:GER alumni and mentors who provide business and technology expertise, career guidance, and career opportunities.

» Career Impact

TI:GER students develop unique skill sets, tacit knowledge, and industry networks that enable them to launch and succeed in their careers.
